## EXPERIENCE

---

1. **Oracle India Pvt Ltd**, May 2022 – Present  
Software Engineer
2. **Tata Consultancy Services**, Dec 2018 – May 2022  
System Engineer

## PROFESSIONAL EXPERIENCE

---

### 1. Software Engineer

Oracle India Pvt Ltd, Hyderabad

- Built a responsive **Construction** domain application using JavaScript framework Oracle JavaScript Extension Tool (**OJET**).
- Analyzed functional and technical specifications to estimate development efforts, identify potential risks and contribute to effective sprint planning in Agile environments.
- Collaborated with cross-functional teams to define and finalize API contracts, ensuring alignment of technical specifications for seamless system integration.
- Collaborated with developers, UX/UI designers, business analysts and QA team to ensure user interfaces aligned with product and business goals and usability standards.
- Migrated legacy pages from .psp to Oracle JET enhancing UI responsiveness.
- Executed automation scripts and triggered scripts in **Jenkins** to support QA efforts during low bandwidth periods, ensuring continuous testing and release stability.
- Presented developed pages to cross functional development teams across India and US.
- Managed version control using Git within the CloudLab environment to track code changes and collaborate with team members.
- Performed Code reviews to ensure code quality, adherence to best practices and maintainability.

**Tech Stack:** OJET, JavaScript, Spectra UI

### 2. System Engineer

Tata Consultancy Services, Hyderabad

- Planned and designed the structure and layout of responsive web pages for **Healthcare** Application.
- Developed a patient portal web application using **Angular** and **Typescript**, integrating Angular Material and PrimeNG component libraries.
- Analyzed business requirements, estimated development efforts, and contributed to planning activities.
- Implemented key features like pagination, grids, tabs, sidebar and PDF export and dynamic child components within reusable parent components.
- Actively participated in scrum ceremonies and desk check meeting to ensure clarity of requirements and smooth spring execution.
- Received formal appreciation for effectively resolving critical project challenges and ensuring timely delivery under tight deadlines.

**Tech Stack:** Angular, Typescript, Angular Material, PrimeNG

### 3. Associate System Engineer

Tata Consultancy Services, Hyderabad

- Developed and maintained responsive web interfaces using **HTML**, **CSS** and **JQuery**.
- Debugged and resolved frontend issues using browser developer tools and testing across different browsers.
- Collaborated with the team to integrate APIs and ensure seamless data exchange and UI consistency.
- Documented the structure of application for client presentations.

**Tech Stack:** HTML, CSS and JQuery
